RE: Ambient Air Sampling at the Perimeter of the Toledo Tie Treatment Site
KMC001.100.0084

Dear Ms. Feng:

Kerr-McGee Chemical, LLC has as of July 22, 1999 completed the perimeter air sampling program designed to sample for benzene and naphthalene at the Toledo Tie Treatment Site. Site activities associated with waste management were complete.

Please find enclosed a table of all the analytical data collected by Hull & Associates, Inc. and the contractor, IT Group. We appreciate your assistance on this project and trust the enclosed information is adequate for your records.

If you have any questions or require additional information, please feel free to contact me at (419) 385-2018.

Sincerely,

Scott Lockhart, P.E.
Senior Project Manager
